Tehnički list SI 48

Steam Italy SI48 industrijski paročistač od nerđajućeg čelika namenjen je svakom industrijskom sektoru zahvaljujući velikoj snazi od 48 kW i pari pod visokim pritiskom. Uz zasićenu paru tu je spoljno usisavanje za temeljno čišćenje, i uz automatizovane sisteme. PLC ekran osetljiv na dodir, kontinuirana para i automatsko punjenje vodom štede vreme.

The SI48 is our stainless steel industrial steam cleaning machine, designed for any industrial sector thanks to its high 48 kW power output and high-pressure steam delivery. Its saturated steam function is combined with external vacuum extraction, for deep cleaning of environments, including with automated systems. A PLC touch screen, continuous steam production and automatic water refill optimize both time and results.
